The Director of Central Intelligence
Washington, D.C. 20505

9. June 1982

MEMORANDUM FOR: The Honorable William P. Clark
Assistant to the President for
National Security Affairs

SUBJECT: NSDD-19

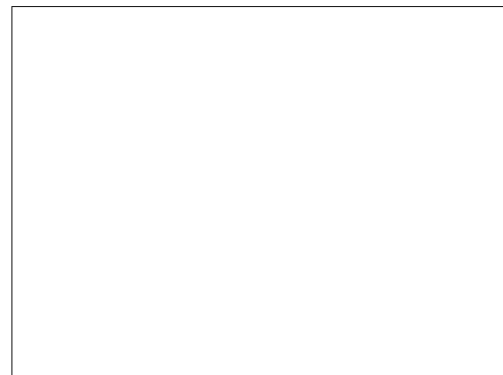

1. At the National Foreign Intelligence Board meeting on 8 June 1982, it was the unanimous opinion of the Board that recent leaks in connection with the Falklands situation have resulted in serious compromises to sensitive US collection sources and methods.

2. As you will see from the attached memorandum to Cabinet officials, I believe that strict corrective measures are required. I also believe that early action on Attorney General Smith's Report of the Interdepartmental Group on Unauthorized Disclosures of Classified Information (the Willard Report) would be most helpful in dealing with this problem in the future.

A handwritten signature in dark ink, appearing to read "William D. Casey".
